

About the Speaker

DR. TARUN AGARWAL

Dr. Agarwal represents a new generation of leadership for the dental profession. As a respected speaker, author, and practicing dentist, he is focused on changing the way general dentists practice. He maintains a full-time general practice in Raleigh, NC that has faced its share of ups and downs. Despite being an 'in network' insurance provider, he's managed to build a successful practice by balancing common sense business principles, digital technology, and clinical excellence.

He produces a weekly podcast called 'Dentistry Made Simple' and regularly holds seminars and workshops at his 3D Dentists training center. Learn more at www.TBoneSpeaks.com.

EARLY BIRD REGISTRATION--SIGN UP EARLY!!!

- \$149 before December 8th
- price increases to \$499 on December 9th
- Enter DELTA as your "member number"

TOMORROW'S DENTISTRY TODAY: 3D PRINTING & AI MADE SIMPLE

SATURDAY, JANUARY 31, 2026

8:00am to 5:00pm

MARRIOTT IRVINE SPECTRUM

7905 IRVINE CENTER DRIVE

IRVINE, CA 92618

8 Lecture CE

AGD Subject Code 010 (Basic Science)

Description

Digital dentistry is no longer the future—it's here now. In this one-day course, you'll discover how to use 3D printing and artificial intelligence (AI) to make your dentistry more predictable, profitable, and patient-friendly.

The morning is all about 3D printing in action: surgical guides, trial smiles, dentures, splints, and more. You'll see step-by-step workflows, learn what materials and printers actually work, and understand how to make printing efficient and profitable in your practice.

The afternoon will demystify AI and show how it's already changing dentistry. From reading radiographs and detecting caries to automating patient communication and streamlining your business, AI is here to stay. You'll leave with clarity on what's hype, what's real, and how you can use it today.

Why Attend?

- Learn practical workflows you can implement immediately.
- See real demos of digital tools in action.
- Understand how 3D printing and AI can save time, lower costs, and boost case acceptance.
- Stay ahead of the curve—and your competition.
