Maxillofacial Surgery
Associate Program Director, General Practice Residency Program

Management of Special Needs Patients

Gregory Bunza, DDS

Assistant Professor of Dental Medicine
at the Columbia University College of Dental Medicine
Section of Cariology and Restorative Sciences,
Division of Operative Dentistry

Gain a better understanding of various cancers and their effect on the oral cavity, common sources of pain in oncology patients, oral hygiene therapy during different phases of cancer treatment, and patient education. Also covered will be dental care for special needs patients including the developmentally disabled, frail older adult, and medically compromised patients of any age. Treating patients with varying degrees of dementia and understanding a patient's physical limitations will also be investigated.

Monday, March 20, 2023 | 6 p.m. - 8:30 p.m. EST
