

A USER'S GUIDE TO DIAGNOSIS AND TREATMENT OF RED AND WHITE ORAL LESIONS

Speaker

Kristin K. McNamara DDS MS
Oral and Maxillofacial Pathologist
CTA Oral Pathology

Overview

Participants in this course will review a variety of conditions that present as red or white alterations of the oral mucosa. The lecture format will be structured with a differential diagnosis approach to highlight key clinical features that can help discriminate against harmless red or white processes from potentially malignant lesions.

Saturday
April 25, 2026
8:30am-3:30pm

Location

The University of Pittsburgh
School of Dental Medicine
3501 Terrace Street, 2148 Salk Hall
Pittsburgh, PA 15261
